

&#65279;Dear Sir:

I have been notified by the Indiana Attorney General that some banks are trying to side step or overturn the Indiana DO NOT CALL list. My phone has finally stopped ringing from more than numerous unwanted calls from all types of salesmen and automatic dialing machines since the law was instituted. I DO NOT want this law changed. When these banks start paying my phone bill then they can start telling me who can call. I call upon you to leave this law in tact.

Michael Kimes
